## PVC GLAZING PROFILES

An easy, aesthetical and economical alternative

Easy to install and economical, it offers a new design thanks to its integrated glazing seals which come in the same colour as the glazing profile.

It can be used in the P26<sup>®</sup>, P40<sup>®</sup>, and Alu-Universel 72<sup>®</sup> systems, in double glazing (clear 6 mm or laminate 33/2 glass).

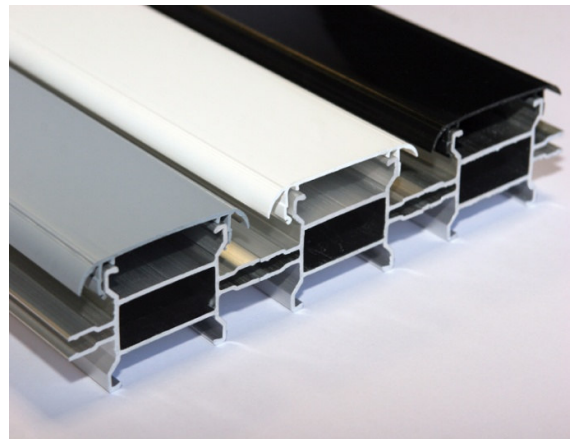

With lower prices, quick installation, and colour harmonization, PVC glazing profiles bring new solutions to your needs.

It is available on stock in length of 2.90m and 5,80m and in 3 different colours : white (RAL 9010) - grey (RAL 7035) - black (RAL 9005).

Previously in « ABCD News » :

- mid-December 2007 : Universel 72, 30 min. fire-rated
- September 2007 : Industrial laminating of PVC onto panels
- July 2007 : Suspension hooks  
Kit Kab Systems
