GLASS DOORS

« sliding doors » and « swing doors » (double action)

An aesthetical frameless solution

SWING DOORS :

- They will be hinged on double action hinges.
- They do not need any floor pivot or floor spring.
- With their hold-closed hinges, they do not require any door closer.

SLIDING DOORS :

- They can be suspended under the ceiling or wall-mounted.
- They perfectly match the design of our ID1 and ID2 glass walls.

For safety reason, glass doors will be in 8 or 10mm toughened glass. Sandblasting or decorative film will enable you to customise the doors according to your clients' aesthetical requirements.
